About us

Essalam Latex and Plastic factory was founded in 1999, The company manufactures its products in-house, employing over 150 professionals in Alexandria, Egypt. Since launching, the straws hit the ground running, witnessing instant success, leading to today's impressive supplies to over than 10 Factories all over EGYPT.

Our straws are composed of food grade polypropylene wrapped in a bioriented polypropylene transparent film complies with FDA regulations.

Applies to Tetra Pak & Combibloc Applicators.

Currently we make 2 types of straw:

- 1- U-shape straws
- 2- I-shape straws

We can to expand to any type or color according to customers request. Our target is to meet customers appreciation by providing them with the best straws with high quality made in highly sanitized work environment.

Our idiom is never back down: we're always on the way of developing new approaches and types to satisfy all tastes.

ADD A STRAW, ADD VALUE

High Quality Drinking Straws add value to your package. That's why we develop, produce and market our own drinking straws, available for you to choose from in different lengths and diameters, depending on the viscosity of the product, the shape and size of the package.

Straight Straw

Add more with a straw

Straws add value to packages and make drinking a real on the go experience. We offer straight straws in different lengths and diameters, and in a wide range of colours to match your package design

U-straw

Draw Straws

Easy to use and great for children. Our U-shaped straw just slips into the package and lets consumers sip the contents-convenience that makes it the market leader.
